BUILT AROUND BUYER REQUIREMENTS

Whether the requirement is a core cotton programme, a seasonal fashion collection or an athleisure range, our role is to align the right product, supplier, costing, sample and quality checkpoints with the buyer's brief.

PRODUCT FOCUS

Knitwear · Casualwear · Athleisure · Family apparel · Sustainable blends

Quality is managed throughout the order

Our buying-office capabilities are designed to give buyers clearer oversight of factory execution, product conformity and supply-chain milestones.

VALUE-ADDED BUYING OFFICE CAPABILITIES

SERVICE PILLAR	OPERATIONAL SCOPE	CLIENT BENEFIT
QA / QC inspection	In-line inspections, mid-production checks and AQL 2.5 final random inspections.	A disciplined inspection process to reduce defect risk before dispatch.
ESG & compliance	Auditing for fair labour, safe working conditions and ethical factory practices.	Greater visibility into responsible factory practices.
Eco processing	Supply-chain partner network referencing ZLD frameworks, OEKO-TEX® and GOTS-certified partners.	Support for buyer sustainability and product-compliance requirements.
Supply-chain visibility	Digital milestone tracking, status reporting and transparent production logs.	More predictable delivery planning and risk mitigation.

SUSTAINABILITY & PARTNER STANDARDS

The company profile identifies a supply-chain partner network that includes GOTS-certified partners, OEKO-TEX® references and Zero Liquid Discharge (ZLD) frameworks. These are presented as partner-network capabilities; specific factory certificates and product-level claims should be confirmed for each order.

A CLEAR ORDER WORKFLOW

01 **BRIEF**
Product, specs & target

02 **SOURCE**
